

2006 IPIECA Climate Change Workshops, Washington DC, USA

Natural Gas as a Climate Change Solution: Breaking down the barriers to methane's expanding role, 26 September 2006

Increasing the Pace of Technology Innovation and Application: Enabling Climate Change Solutions, 27 – 28 September 2006

Arthur Lee, Chevron
Chair, IPIECA Climate Change Working Group

IPIECA in profile

- Founded 1974 - Global Membership: national & multinational petroleum companies / associations
 - Currently 28 companies, 14 associations
- UN Observer status
- Secretariat based in London
- Focus on key global issues:
 - Global Climate Change
 - Biodiversity
 - Social Responsibility
 - Oil Spill Preparedness & Response
 - Fuels and vehicles
 - Health

Climate Change Working Group (CCWG)

Established in 1988 its mission is to:

To provide reliable and timely information, issues analysis,
education and involvement in international processes
related to global climate change

Interaction with UNFCCC

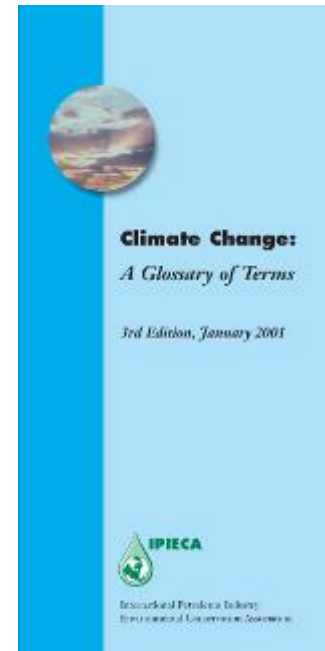

Inform members of developments in the negotiations

- Secretariat attends and reports on all negotiations

SBSTA in-session workshop on carbon dioxide capture and storage

- Bonn, Germany, 20 May 2006
- IPIECA members presented oil and gas industry experiences with CCS
- Detailed the CCWG's CCS activities

Publications (e.g. Guides, Glossary of Terms)

Contributing to the IPCC

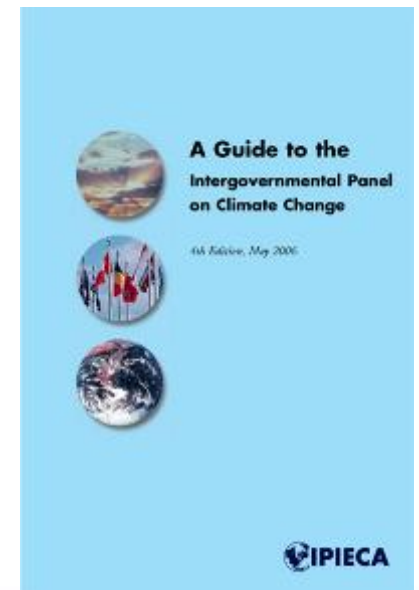

Engage with IPCC assessments, reports and technical papers

- Fourth Assessment Report
- Special Report on Carbon Capture and Storage
- 2006 National Guidelines on GHG Inventories

A Guide to the Intergovernmental Panel on Climate Change

- Details IPCC processes, structure and functions
- Fourth Edition, published 2006

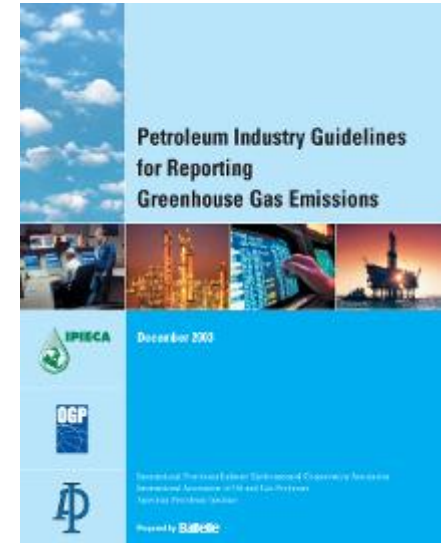

Greenhouse Gas Reporting

Petroleum Industry Guidelines for Reporting Greenhouse Gas Emissions

- Improve quality and consistency of reporting across the industry
- Published 2003

Guidelines for Greenhouse Gas Emission Reduction Projects

- Developing transparent and credible approaches to quantify GHG emission reductions from projects
- CCS guidelines in development

CCWG Workshop & Symposia Series

Energy, Development and Climate Change: Considerations in Asia and Latin America

- Kuala Lumpur, Malaysia, 25-26 September 2002
- San Jose, Costa Rica, 2-4 December 2002

Carbon Dioxide Capture and Geological Storage: Contributing to Climate Change Solutions

- Brussels, Belgium, 21-22 October 2003

CCWG Workshop & Symposia Series

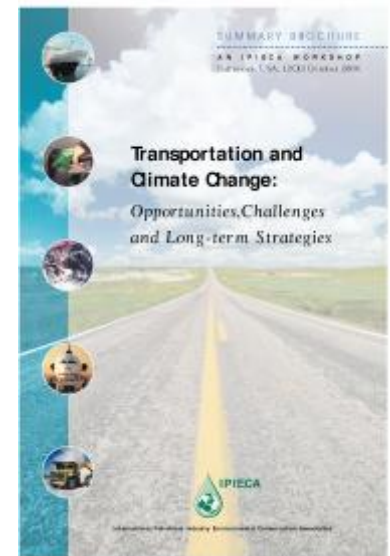

Transportation and Climate Change: Opportunities, Challenges and Long-term Strategies

- Baltimore, Maryland, 12-13 October 2004

International Policy Approaches to Address the Climate Change Challenge

- Beijing, China, 25-26 October 2005
 - Workshop report under development

CCS Policy and Regulatory Development Roundtable

- Houston, USA, 31 January 2006
